ZenduMaintenance

CMMS Software that Organizes, Tracks, & Schedules Your Maintenance Activities

The Fastest Path to Better Maintenance

ZENDU✕MA

Zendu Maintenance organizes, tracks, and schedules your maintenance activities. It integrates with Geotab Engine Data and Driver Vehicle Inspection Reporting.

For Faster. Better. Less Costly Maintenance.

myGEOTAB

+ Works With Geotab Drive DVIR

A Complete Powerful, Streamlined & Turn-Key Solution to Manage End to End Maintenance

Run your entire maintenance operation more effectively and efficiently with work order management, preventative maintenance scheduling, inventory & parts management, purchasing, custom reporting & maintenance cost accounting tools.

Adding Geotab's rich telematics/ECM data to ZenduMaintenance streamlines maintenance workflow. Work orders are automatically created using Geotab engine faults, driver vehicle inspection logs (DVIR), engine hours, or odometer updates.

Core Features

★ **Sync Geotab Diagnostics & DVIR**
Geotab diagnostic faults, engine hours, odometer, and driver vehicle inspection reports are auto synced.

★ **Simple Work Order Creation & Management**
Corrective and scheduled maintenance work orders are automatically generated based on synced Geotab telematics data.

★ **Parts, Inventory, Purchasing, Reports**
Powerful enterprise level reporting allows managers to be more proactive on managing work order backlog, costs, staff assignment, downtime, parts and inventory. Through effective management your maintenance team is more efficient and your vehicles are more productive with less downtime.

Value Added Benefits

★ **Improve Overall Maintenance Performance**
★ **Assign Work Orders to Technicians**
★ **Empower All Workers With Self Service Apps**
★ **Mobile App to Manage Work Orders**
★ **Manage the Full Asset Life Cycle**
★ **Scan Assets for Meter Readings & Docs**
★ **Report Repair Trends & Improve Reliability**
★ **Report Defects & Root Cause**
★ **Improve Health, Safety & Compliance**
★ **Manage Service & Parts Vendors**
★ **Save Money on Parts & Supplies**
★ **Find Pricing on Parts**
★ **Boost Maintenance Productivity**
★ **Reduce Equipment Failures & Extend Life**
