ZenduWork

Intelligent Job & Order Management Software

Scheduling and coordinating multiple job operations between service teams and field staff can be a tedious task. Using paper-based systems or spreadsheets to track and monitor jobs can have a negative impact on your overall efficiency.

ZenduiT's **ZenduWork** integrates ZenduCAM's systems, processes, and domain expertise so that facilities managers can effectively schedule, track and manage multiple job orders in real-time.

ZenduWork helps you preserve your business continuity while leaning into cost optimization.

OVERVIEW

Track the progress of all jobs in real-time for dynamic operation management

SCHEDULE JOBS ON THE FLY

Create work job orders & routes with the ability to edit & complete work orders

IMPROVE COLLABORATION

Share files, feedback & ideas with seamless communication between managers & their field teams

DETAILED REPORTING & INSIGHTS

Receive detailed insights into your business while identifying which jobs were the most profitable

FEATURE HIGHLIGHTS

Easily Manage Job Order Scheduling

Effectively plan, schedule and assign jobs to individuals or teams from a unified dashboard. The dashboard also provides a detailed view of your field staff calendar and daily schedules, thus helping managers balance workloads and increase operational efficiency.

Improve Collaboration & Communication

Keep field staff informed and enhance operational efficiency with automated job reminders, routing details and automated forms documentation powered by Geofence. With built-in Messenger, managers can send and receive messages straight from the **ZenduWork** software, eliminating the need for third-party software.

FEATURE HIGHLIGHTS

Monitor & Control Jobs in Real-Time

ZenduWork helps managers track their jobs' progress in real-time, helping them make informed decisions, coordinate better and complete tasks quicker from end to end. The software also enables managers to track field staff and asset movement across the globe. The mobile application helps field staff update job status in real-time, giving managers a view into fulfillment operations.

Mobile Application for Field Staff

ZenduWork mobile application enables field staff to access all necessary information about their daily schedule. It also notifies them when a new task is assigned, along with essential details such as job description, schedule, address, and optimal routes.

The mobile application has built-in proof of delivery capabilities, making it easier to capture delivery details with minimal manual data entry.

FEATURE HIGHLIGHTS

Generate Insights with Reports

Powered with ZenduCAM's reporting capabilities, ZenduWork creates curated reports for all job and performance-related data to build powerful visualizations. It also generates high-value insights from recorded job events, helping businesses track KPIs and identify areas of improvement.

DYNAMIC INTEGRATION

Easily view road and driver-facing footage in real-time through the ZenduCAM secure dashboard using either the desktop or mobile application

> Apply ZenduCAM predefined rules to trigger and analyze critical events

Use the ZenduCAM rewind feature to investigate previous incidents or search for a specific event

> Take advantage of ZenduCAM's unlimited cloud storage to record uninterrupted events from the dash camera
